Finest Roses for Every Purpose

Landscape Plans and Estimates

21 Henderson Terrace — Burlington, Vt.

PRICE LIST—1929 and '30

All prices herein quoted subject to market changes. I will replace any stock which fails to start to grow in the first growing season. No guarantees are made or implied further whatever.

Good live stock is furnished, and if cared for properly will live and grow. All shrubs, trees and vines require a year or more to get well started—don't worry, but do your part to help. If you don't know how, ask. Prices are NOT PRE-PAID on out-of-town orders.
